

Acoustical Wood Door Systems

Hardware Information Bulletin

Available for download from our website www.overly.com is an in-depth Hardware Information Bulletin which addresses many of the common conflicts which can occur when hardware requirements and operational usage compromises the acoustical effectiveness of the doors or is incompatible with the design and/or construction of the doors.

Hardware covered includes the following:

Hinges

Closers

Cylindrical/Mortise/Panic Devices

Flushbolts

Auxiliary Locks

Thresholds

A PDF file of the latest Hardware Information Bulletin for all of our Acoustical Wood Door Systems offered, can be viewed and downloaded from our website at www.overly.com.
