

THE PRODUCTS OF OVERLY

Headquartered in Greensburg, PA since 1888, Overly Door Company is an industry leader in the design, testing and manufacturing of Specialty Door and Fixed Window products.

Sound-Retardant Products

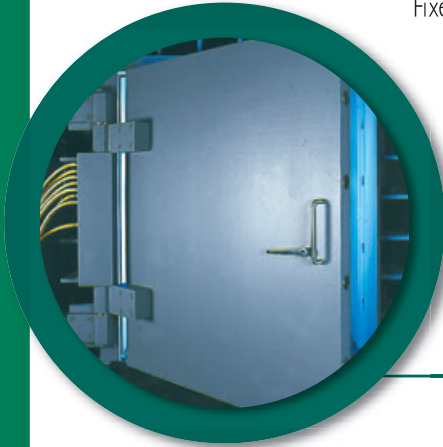

Overly offers a complete line of custom Architectural Acoustic Door and Fixed Window Systems with performance ratings up to STC 55.

Products include: Metal Swinging Doors; Metal Fixed Window Systems; Metal Sliding Doors; Wood and Plastic Laminate Swinging Doors.

Blast-Resistant Products

All of Overly's blast-resistant products have been physically tested or verified with structural analysis by our staff engineers. Products include: Pre-Engineered VLRB, LRB, and MRB Blast Doors; High-Range Blast-Resistant Doors and Windows.

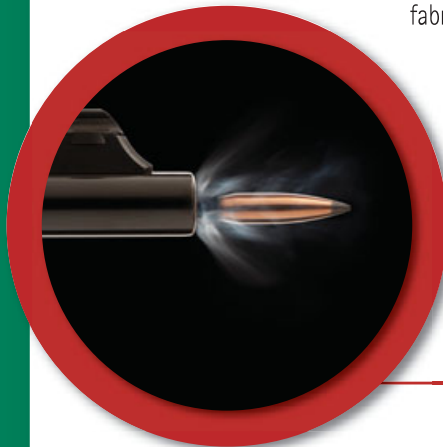

Pressure-Resistant, Watertight and Radiation Shielding Doors

Overly custom designs and manufactures pressure-resistant and leakage-controlled doors on a job-specific basis to your specifications. A wide range of seals and gaskets are available. Overly also custom fabricates a wide range of shielding doors for installations such as research and test laboratories, hot cells, medical facilities, and communications centers.

Bullet-Resistant

Overly provides standard and custom designed bullet-resistant and security products tested in accordance with UL 752 and NIJ 0108.01 standards. Products include: Bullet-Resistant Doors; Transaction Service Windows and Fixed Vision Windows; Package and Money-Cart Pass-Throughs; Gunports; Voice Apertures.

Vault Door

Overly provides High Security Vault Door Products and accessories, including: GSA Class 5A Armory and 5V Security types that meet the requirements of Federal Specification AA-D-600D; and DOS Maximum Security type that meets the requirements of both Federal Specification AA-D-660D and DOS Specification SD-STD-01.01, Revision G. We also provide custom-designed attack-resistant vault doors, and day doors and day gates designed to meet your project's specific requirements.
