

# **Acoustical Metal Door Systems**

## **Hardware Information Bulletin**

Available for download from our website [www.overly.com](http://www.overly.com) is an in-depth Hardware Information Bulletin which addresses many of the common conflicts which can occur when hardware requirements and operational usage compromises the acoustical effectiveness of the doors or is incompatible with the design and/or construction of the doors.

Hardware covered includes the following:

**Hinges**  
**Closers**  
**Cylindrical/Mortise/Panic Devices**  
**Electric Strikes**  
**Meeting Stiles**  
**Flushbolts**  
**Coordinators**  
**Auxiliary Locks**  
**Thresholds**

A PDF file of the latest Hardware Information Bulletin for all of our Acoustical Metal Door Systems offered, can be viewed and downloaded from our website at [www.overly.com](http://www.overly.com).
